I just learned of them this weekend. You may already know of them, the Rose City Redneck Revolt. I'll let you make your own opinion. I know your getting threats, you need to take your safety and the safety of you family seriously.

Ok so I watched the whole video. Got your march done huh..... the subject they are talking about was trying to unarrest the guy everyone held onto. He's not a cop by a long shot. We do not nor will ever use that kind of tactic. I'm guessing the video is done by one of your supporters based on the location and angle around everyone else. He was close to Tiny and I'm sure Tiny would have pushed him out of your group.

You can file a report. If you know who it is he can be listed as a suspect. I'm not sure what he did with it cause the camera moves. He probably handed it off. You would have to come into Portland and request an officer since there is a suspect. If you just came into like Jansen beach and called on emergency they would send an officer

I had just checked the antifa guys before I sent the email a bit ago. Joey posted 59 mins ago that Tiny will be there and encouraged others to go join him. No one there is saying anything about going. These guys are killing me by not pre-planning like before.

I'm not sure who the RRT sergeant will be but I have been asked by individuals from both sides today to pass along their contact phone number. For the peaceful counter protest. Jamie Partridge +1 (503) 752-5112. For a member of the Patriot Prayer group who has done security Lawrence Cavallero +1 (503) 213-0266. I don't think he has an official role today but asked I pass it along. Jamie told me his intel has less black block attending today. He plans on keeping his folks away from the Patriot group. However, Joey posted a video a couple days ago encouraging people to approach and try and talk. May cause conflict and show the Patriots as the aggressors

FYI I just talked to Joey. He is still considering a march. I explained what he is up against and why we want to keep them in a specific area. He is meeting with some people this weekend and told me he would make a final decision by Monday hopefully. I also told him we may have to try and stop him from marching if it was too big of a public safety concern. Told him we didn't want that to happen as he should be able to march but might be considered.

Final thought before the meeting. Joey posted a little by ago asking people who want to fight to stay away. However, some in comments are advocating "self defense" meaning if an antifa person comes up on them to attack first. So not really sure Joey's message is reaching everyone.

Lownsdale and Chapman completely fenced off. Only park open is a Terry Schunk. They will try and occupy that before Joey gets there. If they don't they will take City Hall portico but I think they'll go for the park

I don't see a need to arrest on the warrant unless there is a reason. I'll be working today but upstairs in the operations center. A buddy of mine will be doing the liaison work. But feel free to call or text me if you need to.

There is no intel they want to confront each other. Joey told me he wants to avoid them as there will be family and kids. Antifa event is several blocks away as well. Hoping for a Christmas miracle. If I get enough for 3 I will let the IC know. But it's doubtful. Plus the precincts are hurting for bodies so I do not want to drain them

I heard about this guy on the radio. I'll watch the video. Listening to the officers on the radio the bike guy was instigating some of it. I'll look at it and provide feedback. The thing which hurts us is there are really only a couple of us who know the players and has knowledge about what is happening behind the scenes.

So we had people out contacting groups who do not know the players. I was listening to the radio and heard there was some minor clashes. I was on the perimeter waiting to respond with an RRT squad so it never got to that level. I know we asked anyone if they wanted to make a police report about activities. One was written but I don't know the issues. I will let the command know about your feelings. It's good feedback. Were there smoking bombs and fireworks tossed at you?

I wanted to follow up and say I watched the video. I have discussed this with officers who were nearby. I also have shared this with others so they can see the issues. We will not always arrest someone during an event to reduce a flash point. Having video like this is good for times when we can arrest someone safely and or away from an event. I appreciate you sharing it and your concerns.

1. Yes he talks about what happened Sunday as his reason.
2. The permit time requested was from 1400-2000. Joey's Facebook is from 1600-1900.
3. His personal one is Joey Gibson and then there is the Patriot Prayer site as well.

Joey is really pushing some Antifa folks. Went and did a video talking about Luis Marquez and calling him a pedophile. They rhetoric is ramping up again ahead of the 30th. I had to spend Friday evening calming him and the Adams family down after the GJ for the guy FPS arrested. They are waiting to vote to see a video and they all thought the charges were dropped completely

He is also going to start messaging about we are not the bad guys type stuff. Can't move the day of the rally. To late in the game and he is now going to Berkeley on the 5th.

They are putting up a fence like that one event last year. But trying to do it better. Thinking Antifa might try to mass at the fountain and the Opening in the fence at Taylor will be safer. Also there is a wedding scheduled on the Portland Spirt and other families probably at the fountain so trying to avoid a huge police presence there and any conflict.

Good morning. I am speaking to the planning team for Sat. They would like to ask if your buses and attendees arrive, drop off, and enter the park at Sw Taylor. This is just a couple blocks north of Salmon Springs. Then you will be inside and able to move to the area in the park.

FYI, just sent a page to the team. Joey Gibson doing a flash protest tomorrow night at 1800 downtown somewhere. Putting the team on standby. All my on duty members will wear RRT uniform if we are called in. Getting numbers for others who could come in last ministry if more needed. Right now 9 on duty only

Party at the Square. From 10 am - 8 pm. Supposed to be a celebration of Portland community, charities, and small businesses. If you could avoid that area it would be appreciated. I'm not sure how many will be there, but the Square management gets a little worried about protests upsetting their planned events

Ok so I watched the whole video. Got your march done huh..... the subject they are talking about was trying to unarrest the guy everyone held onto. He's not a cop by a long shot. We do not nor will ever use that kind of tactic. I'm guessing the video is done by one of your supporters based on the location and angle around everyone else. He was close to Tiny and I'm sure Tiny would have pushed him out of your group.

You can file a report. If you know who it is he can be listed as a suspect. I'm not sure what he did with it cause the camera moves. He probably handed it off. You would have to come into Portland and request an officer since there is a suspect. If you just came into like Jansen beach and called on emergency they would send an officer

BTW, make sure Tiny has his court stuff taken care of. I was told on the radio at the Jamison Sq event he had a warrant. I told them we would not be arresting Tiny right now. So please be sure he's good to go before coming down

Ok. Just make sure he doesn't do anything which may draw our attention. If he still has the warrant in the system (I don't run you guys so I don't personally know) the officers could arrest him. I don't see a need to arrest on the warrant unless there is a reason. I'll be working today but upstairs in the operations center. A buddy of mine will be doing the liaison work. But feel free to call or text me if you need to.

I did tell my supervisors your concerns of the pastor as I don't want the Bureau to look bad. Especially the new chief. I appreciate you keeping me in the loop and doing your due diligence.

So we had people out contacting groups who do not know the players. I was listening to the radio and heard there was some minor clashes. I was on the perimeter waiting to respond with an RRT squad so it never got to that level. I know we asked anyone if they wanted to make a police report about activities. One was written but I don't know the issues. I will let the command know about your feelings. It's good feedback. Were there smoking bombs and fireworks tossed at you?

The thing which hurts us is there are really only a couple of us who know the players and has knowledge about what is happening behind the scenes.

I wanted to follow up and say I watched the video. I have discussed this with officers who were nearby. I also have shared this with others so they can see the issues. We will not always arrest someone during an event to reduce a flash point. Having video like this is good for times when we can arrest someone safely and or away from an event. I appreciate you sharing it and your concerns.

They are putting up a fence like that one event last year. But trying to do it better. Thinking Antifa might try to mass at the fountain and the Opening in the fence at Taylor will be safer. Also there is a wedding scheduled on the Portland Spirt and other families probably at the fountain so trying to avoid a huge police presence there and any conflict.

Party at the Square. From 10 am - 8 pm. Supposed to be a celebration of Portland community, charities, and small businesses. If you could avoid that area it would be appreciated. I'm not sure how many will be there, but the Square management gets a little worried about protests upsetting their planned events

Matt,

I spoke with Andy and he said you were taking lead on the Luis Marquez action at the beginning of the day. I have found video from Tiny posted on Patriot Prayer / Joey Gibson's facebook page of the victim speaking. His first name is Cary, but I have not found him on social media in my quick search. We could probably reach out to Tiny to get him to call Detectives if we want to get his statement.

If you find the video, he is in it about minute 18.

Subject: RRT Pre-Event Warning
Date: Wednesday, June 6, 2018 9:21:00 AM

All,

I wanted to alert you to another RRT call out most likely occurring on June 30th. Joey Gibson and his Patriot Prayer group are very upset at how the event last Sunday was handled and they were treated. He is calling on all of his supporters from across the country to come into Portland and support his efforts. I am sure Antfia / Anarchist will ramp up again as well.

Planning has not even begun yet, but this could be a larger rally than Sunday. I know we have been asking a lot of you for Rose Festival, and many of you have pulled multiple shifts on top of your regular duties. But I want each of you to try and clear your calendar for this day. I only had about 14 people say they were available last week for the protest. I want RRT to be the primary team responding to these events in the City and not count on MCSO or others to have the bulk of the squads. I also want to look at being able to provide the CMIC and Ops Chief with an option for one or two hard bikes squads after what we saw last week.

I appreciate the sacrifices you make to keep this team going. I will keep you updated as more information is learned and our role defined.

I have been looking on line at social media and as of yet no counter protest has been posted. I would not count on this being the case.

I spoke with Joey last night and he plans on marching.

Central Precinct will once again not be able to manage this event and will need resources from throughout the City. I would recommend requesting a CMIC be appointed and the planning process begun.

Jeff- you have a much better grasp of the dynamics in these situations than I do. Please let me know what your impressions are and the best way to prepare for Sunday.

Subject: Sunday Protest at City Hall - Another June 30 at Terry Schrunk Plaza

All,

This event may be of concern for Central Precinct and City Hall on Sunday. It will be on the event calendar but I wanted to get an early heads-up to you. We will attempt to find out more information about numbers, counterdemonstration(s), etc.

Sunday June 10, 2018: [Demand Justice And Action From Portland City Hall](#)

Time / Location: 1:00 – 4:00 p.m. / Portland City Hall

Organizer: [Oregon Patriot Response](#) and four others.

Known Threat: None.

Attendance: Unknown.

Notes: This event is in response to June 3 protest activity. Organizing groups seem to align

with Patriot Prayer and affiliates, upset with lack of enforcement against ANTIFA affiliates. Historically, when these groups come into Portland, ANTIFA affiliates respond and there is violence between the groups.

This event on June 30 is potentially going to be significant and we will continue to assess:

Saturday June 30, 2018: [Freedom & Courage Rally](#)

Time / Location: 4:00 – 7:00 p.m. / Terry Schrunk Plaza

Organizer: [Patriot Prayer](#) and [Joey Gibson for U.S. Senate](#)

Attendance: Per Facebook, 188 people (expected to grow significantly)

Known Threat: Assessment in progress.

Notes: This event has indicators of being significant. According to the organizers, groups from Washington, Oregon, California, Arizona, Texas, Massachusetts, and Florida have confirmed they are planning to attend. Organizers are planning a march in the streets in addition to the rally. Historically, when these groups come into Portland, ANTIFA affiliates respond and there is violence between the groups.

Please designate a MFF. Let the roll call know there is a Patriot Prayer affiliated rally at city hall starting at 1300. Joey should not be there I believe.

I will be in around noon to monitor and supervise the event.

Mr. Wolfe,

Thank you for reaching out last night and for sending this information. I will make sure this gets to both the Traffic Division and Central Precinct as those units cover the area of the parade and festival.

If you see any specific social media postings of threats, you may share them with me so we may investigate any potential criminal activity.

Pete,

Here's the link that explicitly explain the history of hate from proud boys and other groups inspired by Joey Gibson, and his own people as well.

---	---

I gotta go and eat my dinner right now but I will do more research and share those links why I am concerned regarding public safety at Pride event this weekend.

It is not just that but from my own personal experience from last year where I witnessed them preaching HATE against LGBTQI outside the festival where I had

to call and request Portland Police to send them home. Police said they can't do anything because it is freedom of speech as long as they stay outside the festival. If they tries to enter the festival, they will be arrested but see, there was only one police officer who I talked to addressing my concern, so it seems to me that PPB may be unprepared, but readily available "on the fly". I believe we can do better if we had some sort of a game plan ready.

From my training experience with police, I have an idea, a game plan in PREVENTING from this happening, meanwhile building trust. I just wanted to know how many police officers are assigned for Pride event? Is there a game plan? Will we get protection? Will we be protected? Who is the point person in overseeing this operation? Can I have a communication with this point of person? It is an opportunity for PPB to work with activist organizations in collaboration. We all must work together and make sure hate stays out of our Pride event.

Pride event was inspired from gay civil rights movement way back in the 1970s in New York where police harassed Gay people, Trans people, and drag queens. They, one night, decided to fight back against police which sparked our gay civil rights movement. This is a huge victory and historic, which is important for us to celebrate our freedom, our civil rights and those who suffered. Proud boys and their intentions are to infiltrate our event. This is unacceptable. They want to harm us, raise hell and start fights. They do not belong here at Pride. This is not what we are here for. This is an opportunity for all of us to work together and ensure public safety for our Pride event.

I will email you back later on pictures I have drew of how this game plan looks like in my head that might help prepare officers deal with proud boys. I will send more links which directly points out my concerns. Again, this depends on how many officers are assigned for this Sunday Pride event, how long will they be assigned, etc. I know it is something that is handled by appropriate authorities however because of what I witnessed last year Pride, I was not impressed with how they handled it. Thankfully the public pressured the proud boys to leave without hurting anyone. This year, I am seeing their vows in threats against us. This worries me. Like I said before on phone, I am willing to work with you and our community. Thank you.

Hello all,

Just info that I spoke to David Machado over the phone this afternoon. He plans to talk to Joey tonight and they will start making a plan for the march. They want to create a designated march route and share it with us ahead of time. They are eager to avoid the brawls of last time. They're also concerned about their safety as their people try to leave at the end of the event. David said he has already made a plan with Commander Luis Lopez of FPS for a safe zone to load up at the end.

David has agreed to meet me at East Precinct next Friday, June 22, at 11:30am. It's primarily a chance for he and I to meet face to face so we can work together the day of the protest. I'm sure he wouldn't mind if CIU or anyone else wanted to attend as well. Just let me know.

Thank you,

Kevin

LT Niiya,

I received your email from PPB Officer Brian Hubbard. I have a contact with Patriot Prayer that is interested in coordinating with PPB for the rally they are planning in Portland on June 30th. The contact, David Machado, has been put in touch with Luis Lopez at the Federal Protective Service. Are you still managing special events for PPB? If so, can I provide Machado with your contact information? If not, can you send me the name of the correct person? Thank you.

Shuttle announcement!

The bus will be picking people up at 108 Grand Blvd, Vancouver, WA 98661. If you look at the two satellite photos there is a red circle along the road and side walk where people will load onto the bus. There will be armed security on the public sidewalk and the Vancouver Police are aware that we are going to be there. As most of you know the Vancouver Police do not put up with masked criminals like they do in Portland. Look for American Flags.

Approximate Shuttle Schedule:

2:00 pm

2:40 pm

3:20 pm

It is highly encouraged to ride the 2 pm shuttle because it will be the safest when dropping off at Terry Schunk Plaza. If a bunch of people just show up for the 3:20 shuttle there might not be enough space. Better to show up early.

Parking: There is a giant parking lot next to the drop off spot and is extremely busy so it will be hard for people to go after your car but it isn't a guarantee. People with flags and other obvious items are parking about a mile away and taking Uber in or just get dropped off by a friend.

People not taking the Shuttle

Those coming into the park on their own should stay away from the north end

of Terry Schrunk Plazza and go straight to the South East corner of the park to check in. There will be alot of security outside of the park on city sidewalks legally armed to help anyone walking from the south.

Final note: Every aspect of this plan is meant to accomplish 2 things.

#1 To keep everyone safe

#2 To get as many criminals arrested as possible in both Portland and Vancouver

So follow the directions closely and listen for direction when we are in the park and on the march. We are using several different plans tomorrow to use their criminal tactics/habits against them so they will end up in jail while we have a safe and fun experience.
